YOUR NEWS

This is the first issue of your college newspaper. It is your paper because it is written by you, for you, and mainly about you.

In a democracy a newspaper — no matter how small — must realize the responsibilities of its functions. Good newspaper journalism adheres to certain basic rules. We are obligated to subscribe to them:

To present issues plainly, accurately, without fear or favor, and under no influence from anyone.

To present all sides of controversial issues.

To limit news to facts, unabashed news reporting, casting opinion only through privileges of editorial comment.

As a college paper, however, additional standards and revisions must be upheld.

We must be non-partisan in racial, class, and religious issues.

Because we also represent the student body, we support any one political or party faction to condemn the other.

We will advocate vigorous student participation in the extracurricular activities — student government, sports forums, dramatics, and all other endeavors symbolic of wholesome college life.

This is a new paper in a new college. It is up to you, all of you, to assure its success. It will reflect your views and opinions; those of the aggregate student body. Primarily as a news organ it will reflect your achievements and your failures.

The COLONIAL NEWS is your newspaper.
Your Political Future

In a few weeks all of us will be asked to vote in the elections of our student government. We will vote to elect a certain number of our fellow students whose tasks it will be to speak for us, voice our views, and direct some of our college activities.

To be able to vote intelligently we must acquaint ourselves with various facts.

We must know our candidates, we must understand the views they advocate, the issues they represent, the factions into which they are divided.

Remember your candidacy and know what they stand for.

Secondly, you must vote. It is not your privilege to vote — it is your duty.

To neglect the student government" implies a selfish, innocent go at legislative attempts and a laboratory period in politics.

Vote sincerely and share this view. We believe student government to be the governmental body of a student society with duties and responsibilities tantamount to the representatives of any other community under our form of government.

We sincerely hope and expect that our student government will embody many of the things that are so radically lacking in most of the major governments of this chaotic world. We trust that our government will stand for honesty, integrity, fair play, justice, and unselfishness. We trust that it will work for the good of the normal body, and that it will put the interests of its constituents above any of its own.

We know that if these are the issues they are willing to work for, stand up for, and be accountable for, we may be certain that a student government of which we and the University will be proud.

Thanks, Triple Cities

We believe we express the sentiments of the student body in saying "Thank you, Triple Cities," for the courtesies you have extended to "Joe College" and "Betty Coed.

To area residents who have opened their homes to those of us from other cities, we are especially grateful.

We hope that "College Town" will mean to you nothing less than admiration, and that our behavior here will conform in every part to the code you rightfully expect.
