

Golf Archive Information

The golf historical archive was compiled based on available statistics and records beginning with the 1991-92 season. Statistics are not available from the 1988-89 through 1990-91 seasons. Prior to the 1988-89 season, the team competed as a club sport and official records were not kept. A player's career totals were calculated even if their season totals were not available from each season they played.

The notation of "did not play" in an individual's statistics record can indicate either that they did not compete in any of the team's matches or that their end-of-season statistics and/or stroke average was not available.

Complete statistics, including the number of tournaments and "counting" rounds played are available beginning with the 1997-98 season.
