FOREWORD

It is a great privilege for the University Art Gallery to present the first exhibition of the Art Studio Alumni. The exhibited works of art show clearly the maturity and individual development of the artists whose search for individual expression reflects their never ending efforts to find their own way of creating. This exhibition and catalog are an example of the policy of the State University at Binghamton of student involvement. It is through the enthusiasm and interest of Cindi Kane and Vanetta Vancak, the Gallery staff, and the cooperation of many of the Art Studio Alumni that this project became a reality.
