

Review Strategies

Type of material	Suggestions for review
Textbook chapters	Re-read what you underlined and marked Re-read chapter summary Answer practice questions at the end of chapters
Lecture notes	Organize and analyze notes for clarity Re-read and mark important information
Supplementary assignments	Review purpose of and relationship to course content
Previous tests and quizzes	Mark all items you missed, look for a pattern of error Identify types of questions you miss Identify topics you need to study further
Instructor's hand-outs and class assignments	Note purpose of each item with corresponding lecture Identify key points emphasized
