Kenneth Goldblatt ’87

Kenneth (Ken) Goldblatt graduated with a BS in computer science (with honors) from Binghamton University’s Thomas J. Watson School of Engineering and Applied Science in 1987. He earned his MBA in finance (with distinction) from New York University/Stern School in 1992.

Goldblatt is the CIO and portfolio manager at S Squared Technology, a hedge fund that invests in small and mid-sized technology companies. He is responsible for portfolio and risk management as well as the firm’s research process and strategic direction. Prior to joining S Squared in 1993, he was an investment banking associate at Oppenheimer & Co. from 1992–1993. From 1987–1990, following graduation from Binghamton, he was a software engineer at American Management Systems, an IT consulting firm.

From 2008–2012, Goldblatt served on the Binghamton University Foundation’s Investment Committee.

He and his wife Sarah are strong supporters of Binghamton University’s annual giving program, The Binghamton Fund. Their gifts to the Binghamton Fund are immediately directed to the University's greatest and most fundamental needs.

He and Sarah live in Sands Point, N.Y. and have four children.
