HOW TO KNOW YOUR IMMUNIZATION COMPLIANCE STATUS

To check your immunization status:
Log on to “https://myhealth.binghamton.edu/
After logging in click on “messages” to take you to your inbox. You will see a message requiring attention regarding immunization status. Click on it and scroll to the end of the message.

If your immunization status reads “Verified” for all requirements, you are complete.

If your immunization status reads “Non-compliance: No Data” for Measles, Mumps, Rubella or Meningitis vaccine-you need to come to Health Services in order to register for classes.

If your immunization status reads “Non-compliance: No Data” for Tuberculosis Screening-you need a test for TB. Make an appointment with a Decker Student Health Service Center Nurse to have one done.
