

# How to Make Your Own Cherry Blossom

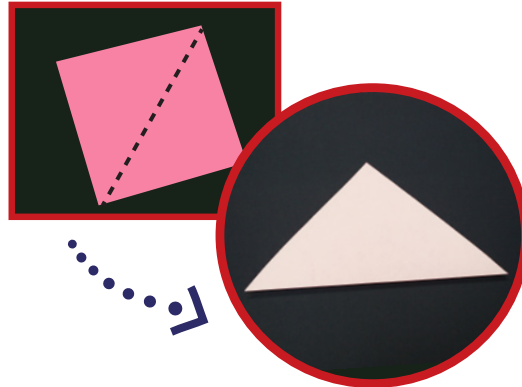

## \* materials

- 5 square sheets of paper
- glue

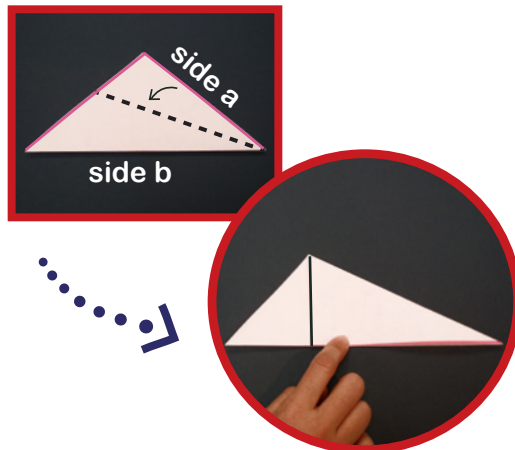

### step 1

Fold your sheet diagonally in half along the dotted line.

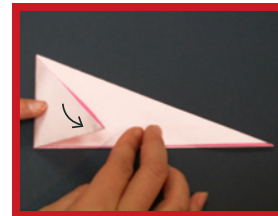

### step 2

Fold down along the dotted line bringing side a to side b.

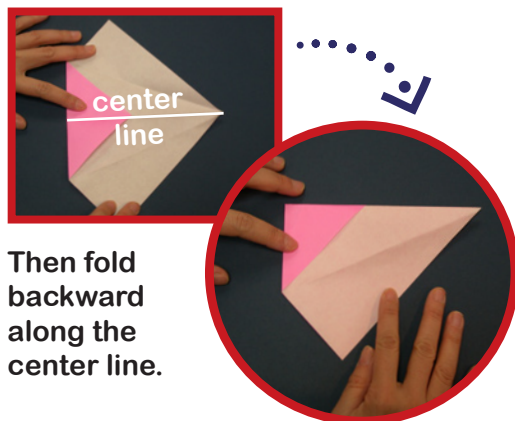

### step 3

Fold the small triangle over along the crease.

### step 4

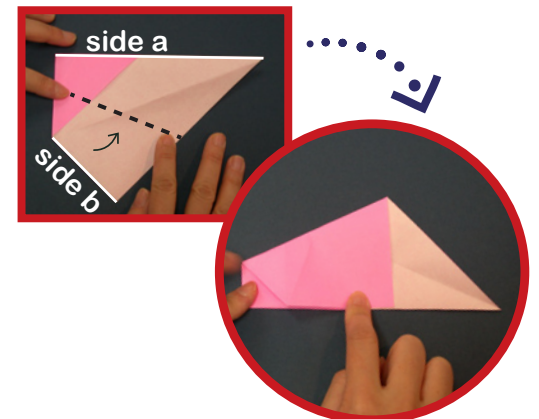

Open the sheet and refold the triangle inward.

Then fold backward along the center line.

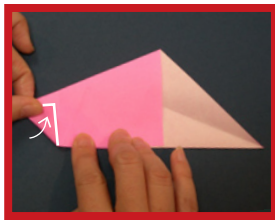

### step 5

Fold along the dotted line bringing side b up to side a. Repeat on the other side.

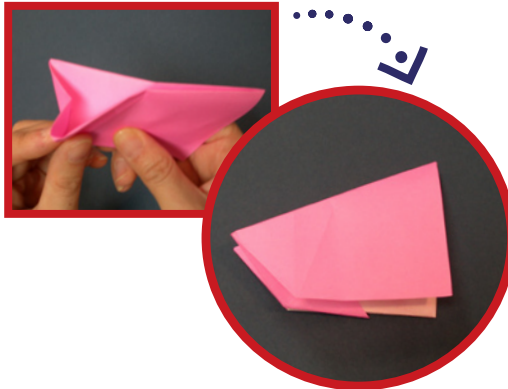

## step 6

Fold the small triangle up, then unfold it.

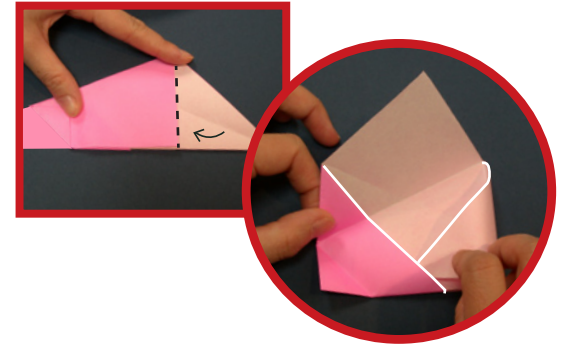

## step 8

Refold the small triangle from step 6 by pressing the center line of the triangle inside the paper and flattening it.

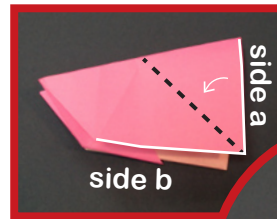

## step 7

Fold along the dotted line, bringing the white triangle inside the flap. Tuck it in the inner pocket.

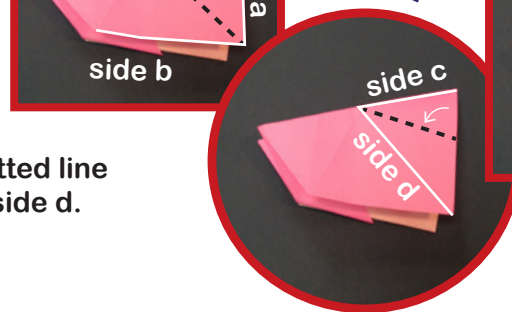

## step 9

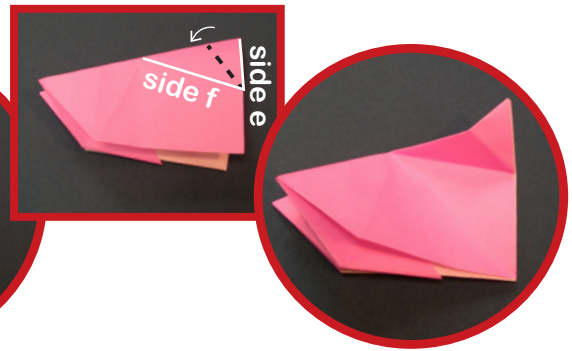

1. Fold along the dotted line bringing side a down to side b. Then unfold.

2. Next fold along the dotted line bringing side c down to side d. Then unfold.

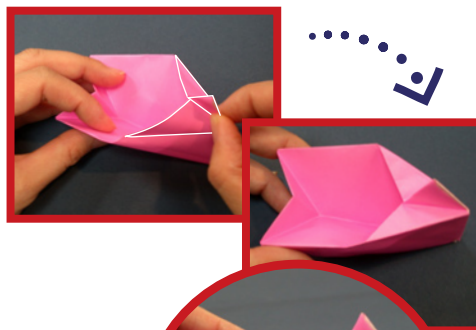

3. Then fold along the dotted line bringing side e down to side f. Then unfold. Repeat the fold on the other side.

## step 10

To form the first petal, pinch the small triangle formed along side e and press out along side f.

Repeat steps 1-10, making four more petals. Glue them together where indicated.
