

List of Approved IN Labs

The courses below are approved to count towards the **3-labs for the Integrative Neuroscience major**. These courses can also count towards elective requirements for the major, and upper level if 300+.

It is the student's responsibility to check the prerequisites for the course they wish to register for.

Dept	Course	Credits	IN Elective Requirement
Anthropology	ANTH 336 - Human Skeleton	4	Related Subject Elective
Biology	BIOL 251 - Anatomy & Physiology I	4	Type A or Type B Elective
	BIOL 252/347 - Anatomy & Physiology II	4	Type A or Type B Elective
	BIOL 324 - Tissue Biology	4	Type A or Type B Elective
	BIOL 329 – Pre-Health Microbiology Lab	2	Type A Elective
	BIOL 340 – Genetics Lab	4	Type A or Type B Elective
	BIOL 371 – Zoology	4	Type B Elective
	BIOL 375 – Animal Behavior	4	Core Course**
	BIOL 379 – Biology & Cons of Birds	4	Type B Elective
	BIOL 421 – Microbiology Lab	4	Type A Elective
	BIOL/BCHM 425 - Molecular Biology Lab	2	Type A Elective
	BIOL/BCHM 426 - Biochemistry Lab	2	Type A Elective
	BIOL 427 - Cell Biology Lab	2	Type A Elective
	BIOL 428 - Functional Genomics & Proteomics	4	Type A Elective
	BIOL 475 – Entomology	4	Type B Elective
Chemistry	CHEM 221 - Intro Analytic Chem	4	Math/Chem/Physics Elective
	CHEM 335 - Org Chem Lab	2	Math/Chem/Physics Elective
Psychology	PSYC 352 - Perception Lab	4	Psychology Elective
	PSYC 355 - Applied Behavioral Analysis Lab	4	Psychology Elective
	PSYC 357 - Learning Lab	4	Psychology Elective
	PSYC 359 - Cognition Lab	4	Psychology Elective
	PSYC 363 - Behavioral Neuroscience Lab	4	Psychology Elective
Approved Research	4 credits of approved research with an IN-faculty member can replace one lab. <i>See the Academic Advisor to verify approval.</i>		

**BIOL 375 is a Core Course, and does not count towards elective requirements. Due to significant content overlap, if you take BIOL 375 you cannot take PSYC 327.
