**DEFINITIONS**

**Accident (Accidental)** means a sudden, unexpected and unforeseen, identifiable event producing at the time objective symptoms of an Injury. The Accident must occur while the Covered Person is insured under the Policy, unless the Covered Person has been continuously insured as stated in the Pre-Existing Condition Limitation.

**Covered Medical Expense** means an expense actually incurred by or on behalf of a Covered Person for those services and supplies which are:

- (1) administered or ordered by a Physician;
- (2) Medically Necessary to the diagnosis and treatment of an Injury or Sickness;
- (3) are not excluded by any provision of the Policy; and incurred while the Covered Person’s insurance is in force under the Policy, except as stated in the Extension of Benefits provision. A Covered Medical Expense is deemed to be incurred on the date such service or supply which gave rise to the expense or charge was rendered or obtained. Covered Medical Expenses are listed in Table 3 and described in Section 2.

**Emergency Hospitalization and Emergency Medical Care** means hospitalization or medical care that results from a medical or behavioral condition, the onset of which is sudden, that manifests itself by symptoms of sufficient severity, including severe pain, that a prudent layperson, possessing an average knowledge of medicine and health, could reasonably expect the absence of immediate medical attention to result in: (1) placing the health of such person or others in serious jeopardy; (2)
serious impairment to such person's bodily functions; (3) serious
dysfunction of any bodily organ or part of such person; or (4)
serious disfigurement of such person.

**Injury** means bodily injury caused directly by an Accident. It must
be independent of all other causes. To be covered, the Injury
must first be treated while the Covered Person is insured under
the Policy unless the Covered Person has been Continuously
Insured as stated in the Pre-Existing Condition Limitation. A
Sickness is not an Injury. A bacterial infection that occurs through
an Accidental wound or from a medical or surgical treatment of a
Sickness is an Injury.

**Medically Necessary** means medical and dental service,
treatment or supplies which are: (1) Recommended by the
attending Physician; (2) Consistent with generally accepted
medical practice for the Injury or Sickness, as determined by the
Insurer; (3) Generally considered by Physicians in the United
States of America to be appropriate for the Injury or Sickness;
and (4) Accepted as safe, effective and reliable by a medical
specialty or board recognized by the American Board of Medical
Specialties. A medical or dental treatment will not be deemed
Medically Necessary if the Insurer determines that any service,
supply or treatment used or provided in connection with the
Injury or Sickness is Experimental or Investigational in nature,
unless an external appeals agent has determined, upon review,
that the treatment for the Covered Person was not Experimental
or Investigational. The fact that a Physician may prescribe,
order, recommend or approve a service or supply does not,
of itself, make the service or supply Medically Necessary. If
services do not meet the criteria above or are not consistent with
professionally recognized standards of care with respect to quality,
frequency or duration, such services will not be deemed Medically
Necessary.

**Reasonable Expense** means the normal charge of the provider,
incurred by the Covered Person, in the absence of insurance, (1)
for a medical service or supply, but not more than the prevailing
charge in the area for a like service by a provider with similar
training or experience, or (2) for a supply which is identical or
substantially equivalent. The final determination of a reasonable
and customary charge rests solely with the Insurer.

**Sickness** means an illness, ailment, disease, or physical
condition of a Covered Person starting while insured under the
Policy, unless the Covered Person has been Continuously Insured
as stated in the Pre-Existing Condition Limitation. Pregnancy is
considered a sickness.
