Academic Policies and Procedures for All Students

Student Academic Honesty Code
Tutorial 6

Citing Your Sources.

Start Tutorial

This module describes the importance of managing your sources, tools that can be used to manage your sources, and the parts of a citation.

Welcome to the Binghamton University Libraries Tutorials!

This suite of tutorials have been designed to introduce students to research practices and help students understand information resources available to them, both in the library and online.

The preferred web browser to view these tutorials is FireFox, however, they will also work in Internet Explorer, Chrome and Safari. Do not use Internet Explorer 9.
We are here to help, ASK US 😊
