Transportation to Binghamton
- Getting to Binghamton -

There are two convenient modes of transportation to reach Binghamton from New York City/Newark airports.

The easiest way to reach Binghamton from NYC and Newark airports is by bus. Buses depart daily from the Port Authority Bus Terminal (located in Manhattan) to the Binghamton Bus Station.

- Follow signs at the airport to “Ground Transportation” to get a taxi, shuttle or bus to the Port Authority Bus Terminal. Once you are at the bus terminal go to either Greyhound Bus Lines or Coach USA Bus Lines in order to purchase a bus ticket to Binghamton.

The second mode is by taking a flight directly from one of the airports to Binghamton Regional Airport (BGM). ISSS staff members are unable to pick you up from the Binghamton Regional Airport. At the BGM airport there are taxi services available that can provide direct transportation to the University upon request and payment. There are other airports in the Binghamton area. Syracuse Hancock International Airport (SYR) and Wilkes-Barre/Scranton International Airport (AVP) are about 75 miles away from Binghamton. Ithaca Tompkins Regional Airport (ITH) is about 50 miles away from Binghamton. Again, transportation to the University from these airports is not provided by the ISSS office. Student are responsible for arranging their own transportation. Please note that a taxi from one of these airports will cost more than a taxi from BGM.
