## **Broome County Oral History Project**

### **Scope and Contents Note**

The Broome County Oral History Project was conceived and administered by the Senior Services Unit of the Office for the Aging. Funding for this project was provided by the Broome County Office of Employment and Training (C.E.T.A.), with additional funding from the Senior Service Unit of the National Council on Aging and Broome County government.

The aim of this project was two-fold – to obtain historical information about life in Broome County, which would be useful for researchers and teachers, and to provide employment for older persons of a limited income. The oral history interviews were obtained between November 1977 and September 1978 and were conducted by five interviewers under the supervision of the Action for Older Persons Program.

The collection contains 64 recorded interviews. Each interview has been transcribed. One transcribed interview does not have an accompanying audio recording. In 2005 Binghamton University Libraries' Special Collections Department participated in the New York State Audiotape Project which undertook preservation reformatting of the audiotapes, and the creation of compact discs for patron use.
