1. PRODUCT AND COMPANY IDENTIFICATION

MICROPOSIT(TM) 351 Developer

Supplier
Rohm and Haas Electronic Materials LLC
455 Forest Street
Marlborough, MA  01752  United States of America

For non-emergency information contact:  508-481-7950

Emergency telephone number
Chemtrec  800-424-9300
Rohm and Haas Emergency  215-592-3000

3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance
Form     liquid
Colour   colourless

Hazard Summary
DANGER!
Corrosive alkaline liquid and vapor causes severe skin and eye burns. Causes respiratory irritation. Onset of symptoms may be delayed.

Potential Health Effects

Primary Routes of Entry: Inhalation, ingestion, eye and skin contact.

Eyes: Will cause severe conjunctival irritation, corneal damage, and may result in loss of vision.
Skin: Material will cause chemical burns.

**Ingestion:** Swallowing may have the following effects: corruption of mouth, throat and digestive tract

**Inhalation:** Inhalation may have the following effects: severe irritation of nose, throat and respiratory tract. Higher concentrations may have the following effects: severe irritation to nose, throat and respiratory tract, and possibly lung damage

**Target Organs:** Eye, Respiratory System, Skin

**Carcinogenicity**
Not considered carcinogenic by NTP, IARC, and OSHA

### 4. FIRST AID MEASURES

**Inhalation:** Remove from exposure. If there is difficulty in breathing, give oxygen. Immediate medical attention is required.

**Skin contact:** Immediately flush the skin with large quantities of water, preferably under a shower. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. Continue washing for at least 20 minutes. Contaminated clothing should be washed or dry-cleaned before re-use. Immediate medical attention is required.

**Eye contact:** Immediately flush the eye with plenty of water for at least 20 minutes, holding the eye open. Immediate medical attention is required.

**Ingestion:** Do not induce vomiting. Wash out mouth with water. Have victim drink 1-3 glasses of water to dilute stomach contents. Immediate medical attention is required. Never administer anything by mouth if a victim is losing consciousness, is unconscious, or is convulsing.

**Notes to physician**
Treat symptomatically. Treat skin burns conventionally.

### 5. FIRE-FIGHTING MEASURES

**Flash point** Nonflammable

**Suitable extinguishing media:** Use water spray, foam, dry chemical or carbon dioxide.

**Specific hazards during fire fighting:** This product may give rise to hazardous vapors in a fire.

**Special protective equipment for fire-fighters:** Wear full protective clothing and self-contained breathing apparatus.

**Further information:** May emit corrosive vapor or mist.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Wear suitable protective clothing.
Wear respiratory protection.
Material can create slippery conditions.

Environmental precautions
Prevent the material from entering drains or water courses.
Do not discharge directly to a water source.
Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Methods for cleaning up
Spills may be absorbed with appropriate absorbent material for alkaline materials.
Transfer into suitable containers for recovery or disposal.

7. HANDLING AND STORAGE

Handling
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Facilities storing or utilizing
this material should be equipped with an eyewash facility and a safety shower. Avoid breathing vapor.
Keep container tightly closed.

Further information on storage conditions: Practice good personal hygiene to prevent accidental
exposure.

Storage
Storage conditions: Store in original container. Storage area should be: cool dry well ventilated
out of direct sunlight away from incompatible materials

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limit(s)
Exposure limits are listed below, if they exist.

<table>
<thead>
<tr>

Eye protection: Chemical goggles and face shield.

Hand protection: Neoprene gloves. Other chemical resistant gloves may be recommended by your
safety professional. Gauntlet sleeves.
Skin and body protection: rubber or neoprene apron

Respiratory protection: Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Engineering measures: Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Form  liquid
Colour  colourless
pH  > 12
Boiling point/range  > 100 °C  (> 212 °F)
Melting point/range  0 °C  (32 °F)
Flash point  Nonflammable
Vapour pressure  2.3 hPa at 20 °C  (68 °F)
Water solubility  Miscible
Relative density  1.00
VOC’s  0 g/l

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Hazardous reactions  Stable under normal conditions.

Conditions to avoid  contact with incompatible materials

Materials to avoid  Acids.

Hazardous decomposition products
polymerization  None known., Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.
Component: Sodium hydroxide
Acute oral toxicity  
LD50 rat  4,090 mg/kg

Component: Sodium hydroxide
Acute oral toxicity  
LDLo rat  500 mg/kg

Component: sodium tetraborate decahydrate
Acute oral toxicity  
LD50 rat  4,500 - 5,000 mg/kg

Component: Inorganic Borates
Acute oral toxicity  
LD50 rat  2,660 mg/kg

Component: Sodium hydroxide
Acute dermal toxicity  
LD50 rabbit  1,350 mg/kg

Component: Inorganic Borates
Acute dermal toxicity  
LD50 rabbit  > 2,000 mg/kg

Component: Inorganic Borates
Subchronic toxicity  
No evidence of carcinogenicity was seen in the following species: mice

Component: Inorganic Borates
Mutagenicity  
No mutagenic activity was observed in bacterial cells.

12. ECOLOGICAL INFORMATION

Ecotoxicological information on this product or its components appear in this section when such data is available.

Sodium hydroxide
Ecotoxicity effects  
Toxicity to fish  
LC50  
18 mg/l

Toxicity to aquatic invertebrates  
EC50 Daphnia magna  
25 mg/l

Inorganic Borates
Ecotoxicity effects  
Toxicity to fish  
LC50  
807 mg/l

Toxicity to aquatic invertebrates  
EC50 Daphnia magna  
864 mg/l

13. DISPOSAL CONSIDERATIONS

Environmental precautions: Prevent the material from entering drains or water courses. Do not discharge directly to a water source. Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.
Disposal
Dispose in accordance with all local, state (provincial), and federal regulations. Under RCRA, it is the responsibility of the product's user to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because the product uses, transformations, mixtures, processes, etc. may render the resulting materials hazardous. Do not remove label until container is thoroughly cleaned. Empty containers may contain hazardous residues. This material and its container must be disposed of in a safe way.

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations

15. REGULATORY INFORMATION

SARA TITLE III: Section 311/312 Categorizations (40CFR370): Immediate health hazard

SARA TITLE III: Section 313 Information (40CFR372)
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

U.S. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D): U.S. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D) This product does not contain any substances subject to Section 12(b) export notification.

US. Toxic Substances Control Act (TSCA) All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

California (Proposition 65)
This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.
