How do I enter information on the Areas of Research page? There are 5 steps in this process.

1. Click on the **Areas of Research** link.

The **Areas of Research** screen displays:
2. Click on the Add Areas of Research link. A listing of all research areas displays:

3. Click on the appropriate category for your protocol.
4. The results display on the screen: The user should choose as many as may apply to the research.

5. Remove “All Research Areas” by clicking on the **Remove** link.

Now only the **Select** category displays.
