

What should I look at first on the PI Dashboard?

The PI Dashboard has a wealth of information to assist you in the management of your sponsored programs. To highlight those items that may need your immediate attention, an *Alert* tab was developed. To access the *Alert* tab:

1. Once you have logged into the RF Report Center, select *Principal Investigator* at the Dashboard dropdown.

2. Select the *Alerts* Tab.

3. By selecting the "+" symbol on each section, it will provide you with detailed information on all your awards/project.
