Concerned about course offerings and cross-listings? Make your voice heard!!

Many students are concerned about the courses they are taking...BUSAC Representatives and Academic Liaisons, Albert and Peter have been working closely to address these types of issues with the administration who make decisions about the Scholars Program, its course offerings, and benefits for the students. They always welcome your opinions at meetings and through email. The best way for you to be heard: visit the Scholars Program website and click on “Anonymous Feedback” on the Contact Us page.

This feedback will have no identifying information attached to it and is periodically passed along to the decision makers. Let us know what you’re concerned about!!

Wolf Conservation Center Visit

This program is a repeated favorite of the Scholars Program and is working with Team RST of the SCHL 227 projects. Tell your friends...we hope to see everyone there!

Binghamton University will welcome the Wolf Conservation Center of South Salem, NY and their five-year old Arctic gray wolf, Atka, on May 4th at 1pm. The program will include an awe-inspiring, up-close encounter with this important but misunderstood predator. Guests will learn about the history of wolves in the United States, the importance of wolves in a healthy ecosystem and the efforts to save these magnificent creatures for future generations.

Founded in 1999 the Wolf Conservation Center (WCC) in South Salem, NY promotes wolf conservation by teaching about wolves, their relationship to the environment and the human role in protecting their future. The WCC accomplishes this mission through onsite and offsite education programs. These programs emphasize wolf biology, the ecological benefits of wolves and other large predators, and the current status of wolf recovery in the United States. The WCC also participates in the Species Survival Plan (SSP) and Recovery Plan for the critically endangered Mexican gray wolf and the red wolf. For more information about the WCC visit the website at www.nywolf.org or call (914) 763-2373.
