§ 566.0 Traffic regulations on State-operated campuses.

(a) The New York State Education Law authorizes the State University to adopt and make applicable to its campuses any and all provisions of the Vehicle and Traffic Law. Further, the university may develop its own rules to cover special campus circumstances.

(b) Any violations of any statute or rule shall be punishable as provided in the adopted provisions. That is, a campus- created rule might be administered by the institution itself. Violations of provisions of the Vehicle and Traffic Law made applicable to the campus would be adjudicated by the magistrates' court having territorial jurisdiction over the campus and/or personal jurisdiction over the defendant. However, the university may also impose a campus penalty.

(c) Transportation and Parking Services is responsible for administrating all parking permits and parking violations. Transportation and Parking Services enforces all university parking regulation and vehicle laws. University Police may enforce parking regulations, along with vehicle and traffic laws.

§ 566.1 University regulations.

Subdivision 1(c) of section 362 of the Education Law empowers the university to develop its own rules regarding traffic and parking not inconsistent with the Vehicle and Traffic Law. These may include the assessment of an administrative fine upon the owner or operator of vehicles for each infraction.

Violation of university regulations is prejudicial to the common interest of all who operate motor vehicles on the campus and may result in fines or in the loss of parking or driving on campus. These rules and regulations replace all prior orders which established traffic regulations on the grounds of State University of New York at Binghamton, Town of Vestal and Broome County.

§ 566.2 Application of regulations.

The rules and regulations adopted and promulgated by the State University at Binghamton council and set forth in this Part are effective throughout the year, from September 1st to August 31st, including all recess and intersession periods. They apply to students, employees, faculty and staff of the university, and all other persons who operate or park or whose vehicles are operated or parked at any time on the grounds of the university, including visitors, officers and employees of other agencies whose vehicles are operated and parked regularly on the grounds of the university. The Vehicle and Traffic Law shall apply upon such premises notwithstanding any references in such law to public highways, streets, roads or sidewalks. No person shall drive a vehicle on university streets, roads or highways at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing, but in no event shall a person drive a vehicle in excess of 20 miles per hour unless a different speed is authorized and indicated by the university.

§ 566.3 Campus registration of motor vehicles.

(a) No vehicle may be operated or parked on the grounds of the university without a valid State registration and without displaying a current campus vehicle registration permit, as provided in this section, and upon payment of an annual vehicle registration fee as approved by the chancellor or his designee, unless the vehicle is not subject to such regulations.

(b) Prerequisites for registration.

(1) The applicant must be legally qualified to operate a motor vehicle in New York State.

(2) The vehicle must be registered and inspected in New York State or in some other state or jurisdiction that qualifies it for legal operation in the State of New York.

(3) The owner of the vehicle must be covered by effective public liability insurance in accordance with the minimum amounts required by New York State law. Such insurance must cover any liability incurred while the vehicle is driven either by the registrant or by someone with the registrant's explicit or implicit permission.

(4) There must be no unpaid university-imposed parking or traffic fines outstanding against the applicant or the vehicle to be registered.

(c) An applicant may register only a vehicle belonging to him or to a member of his immediate family. The term belonging shall mean owning or operating a vehicle for one's own benefit.

(d) If anyone who has registered a vehicle acquires an additional or different vehicle, he must register it within 48 hours of its acquisition. If a new license plate number is obtained for any vehicle, the Parking Services Office must be notified within five days of the new license plate number being displayed.

(e) Vehicle registration permits must be permanently and entirely affixed and displayed when they are issued and as the university indicates. The person to whom a permit is issued is responsible for any parking violations of the vehicle. Taping and other temporary adhesion is not permitted. If the vehicle is

sold or if student and/or employee status within the university is terminated, it is the owner's responsibility to remove the permit.

(f) Faculty and staff vehicles. Upon completion of the vehicle registration form and payment of the required fees, a vehicle registration permit is issued to faculty members and employees of the university, including but not limited to the affiliates of the Research Foundation, SUNY Foundation and those companies contracted to provide food, bookstore, vending and child care services who have fulfilled the conditions set forth in this subdivision.

(1) Parking registration fees and/or parking permit fees, as approved by the chancellor, or designee, shall be charged for motor vehicles parked within designated lots, consistent with applicable collective bargaining agreements and in accordance with guidelines established by the chancellor or designee.

(2) Such guidelines shall provide that the determination of the amount of the fee be based substantially on an analysis of the costs attributable to the operation and maintenance of the parking facilities owned and operated by Binghamton University.

(g) Student vehicles. All students are required to register motor vehicles annually with the university and must do so within the time designated for academic registration at the beginning of the fall term. Students who enter the university at the beginning of the spring or summer term must obtain a campus vehicle registration permit upon entering. Students who reenter the university after a period of absence must obtain a campus vehicle registration permit upon reentering. Students who do not own, maintain or operate motor vehicles that must be registered for a campus vehicle registration permit at one of these times, but who later acquire a vehicle or otherwise become subject to campus registration requirements, must complete their vehicle registration within 48 hours after becoming so subject. Freshmen who reside in university residence halls are not permitted to register or park a vehicle on campus without permission given by the Parking Services Director.

(h) Veterans. Any veteran, as defined in section 360 of the New York State Education Law, in attendance as a student at the university shall be exempt from parking fees. Registration fees still apply. He/she must be enrolled in courses for the current semester, present a DD-214 and be honorably discharged.

(i) Temporary registration permits, not to exceed 3 times per year, may be obtained at the Parking Services Office, information Booth or University Police Department dispatch office.

(j) Fees. Vehicle registration permits will be provided only after the appropriate fee, as approved by the Chancellor or designee has been paid. This fee is applicable to all permits issued during the year (September 1st to August 31st) by the Parking Services Office. There will be a fee for any replacement permit.

§ 566.4 Visitors.
