

SYSTEM SCIENCE INFORMATION SESSION

WEDNESDAY, FEB. 14

12:00 PM

UJW 133A (FLEISHMAN CAREER AND PROFESSIONAL DEVELOPMENT CENTER)

Are you interested in how things work?

Whether you study on-campus, online, or in Manhattan (health systems), the Systems Science graduate program at Binghamton University offers a unique, internationally recognized, highly transdisciplinary learning and research experience that provides you with concepts, principles and methods for understanding, modeling, analyzing, optimizing and improving various forms of complex systems. Join us to learn more about the opportunities.

BINGHAMTON
UNIVERSITY

STATE UNIVERSITY OF NEW YORK

Department of Systems Science and Industrial Engineering

Thomas J. Watson
School of Engineering
and Applied Science

Open to All Majors

**Exciting and
Inherently
Interdisciplinary**

**Available with or
without
concentration in
Health Systems**

Focus areas include:

complex systems, agent-based modeling, fuzzy logic, data science and knowledge discovery, uncertainty theories, network science, generalized information theory, soft computing, intelligent control and robotics, decision making, dynamical systems and systems dynamics.
