

Dear Candidate,

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.43 (2019 Rule), and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 19.2, SUNY Binghamton provides the following disclosure related to the educational requirements for professional licensure and certification.

This Disclosure is strictly limited to the SUNY Binghamton's determination of whether its educational program, *Master of Arts in Teaching: Adolescence Education: Chemistry*, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for *Classroom Teacher Certification*.¹ SUNY Binghamton cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.**

SUNY Binghamton has designed an educational program curriculum for a *Master of Arts in Teaching: Adolescence Education: Chemistry* that if successfully completed **is sufficient to meet** the licensure and certification requirements for an advanced practice license in the following states:

¹ This determination is based on the educational and curricular requirements of each state for licensure (i.e., excluding any special, temporary licensure that may be granted) and does not imply that other requirements for

licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment. Each student should verify their particular situation with their intended state's licensing entity.

STATE	Office Of Teaching Initiatives - Licensure Contact
New York	http://www.highered.nysed.gov/tcert/

Despite making all reasonable efforts, SUNY Binghamton's current educational program curriculum for the *Master of Arts in Teaching: Adolescence Education: Chemistry* does not meet the licensure and certification requirements for *Classroom Teacher Certification* in the following states at this time²:

STATE	
Alabama	Missouri
Alaska	Montana
American Samoa	Nebraska
Arizona	Nevada
Arkansas	New Hampshire
California	New Jersey
Colorado	New Mexico
Connecticut	North Carolina
Delaware	North Dakota
District of Columbia	Commonwealth of Northern Mariana Islands
Florida	Ohio
Georgia	Oklahoma
Guam	Oregon
Hawaii	Pennsylvania
Idaho	Commonwealth of Puerto Rico
Illinois	Rhode Island
Indiana	South Carolina
Iowa	Tennessee

Kansas	Texas
Kentucky	Utah
Louisiana	Vermont
Maine	Virginia
Maryland	Virgin Islands
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Mississippi	Wyoming

² This does not mean the educational program will not ultimately be approved by the state entity, or that licensure could not result from attending this program.
