

Pipe Dream | Coding Project Experience

Pipe Dream is looking for web developers. Responsibilities will include contributing to the redesign of our internal editing system (called Pipe Line), helping to maintain the current website and some system administration tasks as well.

We are looking for students with a background in HTML, CSS, JavaScript and PHP. This is an excellent opportunity for underclassmen looking to gain further experience in this field.

Pipe Dream's General Interest Meetings are on September 6 and 7 at 7 p.m.

Anyone interested who can't make the GIMs should send their resume or any questions to the Managing Editor, Noah Bressner, at manager@bupipedream.com

Noah Bressner

Managing Editor, Pipe Dream
